**Subject:** RE: Shut down exercise---IAs activities that need to continue during shutdown

Hi Robin,

Currently, Removal Program has two active IAGs with associated Sites that need to be continued during the shutdown:

- DW-14953883 (DOI/BOR) – Technical Assistance (Tomichi, Red and Bonita, Rico-Argentine and Gold King Mine)
- DW-70-95402401 (USCG) – Emergency Response Removal Program for Removal Program (Gold King Mine and Gold King Mine's Support)

Please let me know if you need additional information.

Thanks.

If you are receiving this email you have an IA in the system and the status for the above (site activities that need to continue during shutdown) is not clear. I have already talked to most Superfund people but need to collect this information for all the EPR programs. Please get back to me by tomorrow if your IA needs to continue in the event of a shutdown. Please state your IA number as well.

Duc, if it is all of removal that needs to continue just say so, otherwise, shoot me the IA numbers that need to continue.
